

Snake in the Pool

I was on a vacation with my family in Florida. I was swimming in the pool and when I got out something slithered under my leg. It was a snake. It was a coral snake. The most poisonous snake in the U.S.! I warned my family! I got out of the pool. A guy named Tony came and he picked up the snake with a shovel. He buried it. Now I always check the pool for snakes.

The End.
