

All About My Old Dog Winston

Have you ever had a dog that you will remember for the rest of your life? Well, I have one. His name was Winston. He was so kind and loving. He meant so much to me. I used to play on the rug in the living room of our house with him. He and I loved to build tents. We would move chairs around and cover them in blankets. Winston loved dog treats so. I would always put a treat in the middle of the tent, and he would come running in to join me. I loved that. That was my favorite. Winston also loved to play tag. When I touched his paws, he used to bark and growl! I would always laugh. He was just playing with me.

Winston meant so much to me. He was always walking around with me. I could tell him anything. He would always let me play with him. Winston slept most of the day waiting for me to come home. He used to run around the house and bark for food. It was so annoying we had to give him food because his bark was so annoying! He had us figured out. We still loved him no matter what. Winston will be forever in my heart.
