

My Blueberry Garden

K-02

I have a blueberry garden at my house. There are 98 blueberry plants. One died. We got Northland and Bluecrop

They taste sour and sweet. My favorite are the sweet ones. When I was picking them I saw a lot of bugs. My job was quality control. My dad told me I did a good job just picking the blue ones.

We tried to pick them together
and sell them. It cost 3
dollars for 1 box. We made a
sign, it said Blueberries
for sale. We had a lot of
customers. They put money
in a can. We got to split
the money. It was fun
picking blueberries.

The End
