

Pontoon Day

Have you ever been on a Pontoon Boat? I have. One day in Florida I was on a Pontoon Boat with my family. We saw lots of manatees even a mom and baby swimming beside the boat. We saw lots of alligators and one of them actually hissed at us when we got very close to it. The most amazing thing was when we saw a bird on a stick with a fish in his mouth and the bird was beating the fish on a branch. When the bird tried to swallow it the fish was wiggling around in the bird's throat. My sister and I got to drive the boat for a little while. That was so fun! I was my papa's co-captain. I got to look at the map and tell him where to go. Oh the way back my mom dropped her headband in the water. We had to go back to get it. That was kind of funny. I did not want to get it because of the alligators in the water. Everyone on the boat thought the river was so beautiful, except for the dead fish floating in the water. I hope I can go on the pontoon boat
