

### **SMOKING ON SCHOOL PREMISES**

The Wells-Ogunquit C.S.D. School Committee recognizes that smoking tobacco or otherwise using tobacco products is injurious to the health of both those who use such products and those who must come in contact with the residue of tobacco use. Further, the school curriculum teaches the health risks associated with the use of tobacco.

Therefore, effective September 1, 1991, any use of tobacco will not be permitted in Wells-Ogunquit C.S.D. buildings or on school grounds at any time.

Adopted by the Wells-Ogunquit C.S.D. School Committee:
