

## CURRICULUM ADOPTION

The Wells-Ogunquit Community School District recognizes that an effective curriculum is subject to ongoing review and modification.

20-A MSRA §4502 (1) requires each school administrative unit to prepare and implement a comprehensive educational plan that is aligned with the system of learning results, focused on the learning of all students. The School Committee has adopted Maine's *Learning Results* and charges its administrators to comply with the state timeline for implementation.
