

PARENT CONFERENCES

A parent/teacher conference shall be scheduled for each student on a designated day at least twice each year. Such conferences shall serve to report on the student's progress and to promote better communication between and the teacher and the parent/guardian.

The School Committee recognizes the importance of close cooperation between parents and teachers, and directs the administration to schedule parent conference days in such a way that as many parents as possible will be able to attend.

Principals shall inform their staff of parent conference day schedules as early as practicable, and shall be requested to report to the Superintendent of Schools on the attendance at, and general effectiveness of, parent conferences.

Additional parent/teacher conferences may be scheduled at other times, whenever the teacher and/or the parent so desire.
