

## EVALUATION OF INSTRUCTIONAL PROGRAMS

The purpose of evaluation of instruction will be:

1. To determine educational needs and provide information for planning.
2. To indicate instructional strengths and weaknesses.
3. To check on the suitability of programs in terms of community requirements.
4. To show the relationship between achievement and the system's stated goals.
5. To provide data for public information.

Instructional programs shall be directed by the Superintendent in cooperation with all school principals, the Assistant Superintendent of Schools for Curriculum and Instruction, and the Director of Special Services.

It shall be the responsibility of the Superintendent to report periodically to the School Committee on the progress the District is making towards the attainment of its educational goals.
